

World through Colour and Sound

2023 edition

Evaluation Grid – Grant 1

	Evaluation Criteria	Maximum score
	A. Relevance of the project	25
1	Relevance of the project goal and objectives to the priorities of the Programme	5
2	Relevance of the proposed intervention in addressing the problem/need with clear means of identifying how the solution proposed is relevant to the beneficiary group	5
3	The proposed project has a clear intervention logic between objectives, activities and expected results	5
4	The target groups are strategically chosen, clearly defined and quantified, include a very large number of beneficiaries and cover a large geographical area (implementation at national level)	5
5	The proposed consultation activities with beneficiaries are relevant to the beneficiary group and project objectives	5
	B. Activities, working plan	20
6	Well chosen, realistic, feasible activities that contribute to achieving the project objectives	5
7	Promotion and visibility activities are clearly described, adapted to the specificity of the target audience and project objective	5
8	Indicators used in the evaluation of the project are clear and address the progress made at the end of the project	5
9	The risks and opportunities of the project implementation are identified and relevant	5
	C. The budget of the project	10
10	The costs proposed are in close relation with the activities and the expected results	5
11	The costs proposed are realistic and justified	5
	D. Sustainability and Digital innovation	20
12	Sustainability of the project is clearly presented through proposed activities	5
13	The potential for multiplying the project is clearly identified and relevant	5
14	The digital solutions proposed are relevant, effective and innovative	5
15	The project is relevant in addressing the issue of digital inclusion	5

	Evaluation Criteria	Maximum score
	E. Partnership and Human Resources	25
16	The organizational set-up and the team structure and qualifications are proper for implementing the proposed project (number, roles, responsibilities, project steering)	5
17	Level of professional expertise and qualifications of the proposed team members in the specific domain of the project	5
18	Level of professional expertise of the Solicitant Partner in project management; the partners have successfully implemented other partnership projects	5
19	Adresability of the proposed solution for a multi-partnership project. Thorough presentation of the partnership mechanics (the roles of the partners are clearly stated and linked with the experience and expertise of each partner in the specific domain of	5
20	Opportunities for volunteering in general, and for Orange employees, in particular	5
	TOTAL	100

Evaluation Grid – Grant 2

	Evaluation Criteria	Maximum score
	A. Relevance and structure of the project	25
1	Relevance of the project goal and objectives to the priorities of the Programme	5
2	Relevance of the proposed intervention in addressing the problem/need with clear means of identifying how the solution proposed is relevant to the beneficiary group	5
3	The proposed project has a clear intervention logic between objectives, activities and expected results	5
4	The target groups are strategically chosen, clearly defined and quantified, include a significant number of beneficiaries strategically chosen from different locations	5
5	The proposed consultation activities with beneficiaries are relevant to the beneficiary group and project objectives	5
	B. Activities, working plan	25
6	Well chosen, realistic, feasible activities that contribute to achieving the project objectives	5
7	Realistic timing of proposed activities	5

	Evaluation Criteria	Maximum score
8	Promotion and visibility activities are clearly described, adapted to the specificity of the target audience and project objective	5
9	Indicators used in the evaluation of the project are clear and address the progress made at the end of the project	5
10	The risks and opportunities of the project implementation are identified and relevant	5
	C. The budget of the project	10
11	The costs proposed are in close relation with the activities and the expected results	5
12	The costs proposed are realistic and justified	5
	D. Sustainability and innovation	20
13	Sustainability of the project is clearly presented through proposed activities	5
14	The potential for multiplying the project is clearly identified and relevant	5
15	The project contains elements of new and/or innovative approaches	5
16	The project is relevant in addressing the issue of digital inclusion	5
	E. The applicant and human resources	20
17	The organizational set-up and the team structure is proper for implementing the proposed project (number, roles, responsibilities, project steering)	5
18	Level of professional expertise and qualifications of the proposed team members in the specific domain of the project	5
19	Level of professional expertise of the applicant in project management	5
20	Opportunities for volunteering in general, and for Orange employees in particular	5
